ComfortCare Women's Health
Engage. Educate. Equip. Empower.

ComfortCare Women's Health is a life-affirming, non-profit medical clinic that seeks to engage, educate, equip, and empower women and men most vulnerable to abortion when facing an unintended pregnancy.

We seek to offer complete **education** so that women can make a fully informed decision. We strive to **equip** women with resources that strengthen each component of their whole self. We surrender to the Holy Spirit that He may be her guide and source of **empowerment** to choose life for her and her child.

All services are provided free to every patient regardless of income, race, religion, or health insurance coverage. Services include: pregnancy testing, pregnancy confirmation through limited OB ultrasound, medical consultation, and peer counseling on pregnancy options.

Here's how the Baby Bottle Campaign Works:

1. **Pick up** a baby bottle at church today.
2. **Fill the bottle** with change, cash, and checks.
3. **Return the filled bottle** to church by the date due.
4. **Pray** for the patients, staff, and volunteers at ComfortCare who will be directly impacted by your donation. Your gift will change lives!
